

Praveen Revatagaon

Software Engineer

9620548555

prvn.gr11@gmail.com

Experience

3+ years

Education

B.E

Core Competencies

- ❖ Responsive and Mobile-First Development
- ❖ React.js
- ❖ Component Design and Architecture
- ❖ Version Control & Collaboration
- ❖ HTML
- ❖ CSS
- ❖ Testing and Debugging

Soft Skills

Profile Summary

- ❖ Build and maintain efficient, reusable, and reliable React components and applications.
- ❖ Work closely with UX/UI designers to translate design wireframes and mockups into interactive and responsive user interfaces.
- ❖ Create clean, scalable, and maintainable code using React best practices.
- ❖ Implement state management using tools like Redux, Context API, or other state management libraries.
- ❖ Work with backend developers to integrate RESTful APIs or MS SQL/MySQL into frontend applications.
- ❖ Performance Optimization: Analyze and optimize frontend performance, including improving load times and responsiveness.
- ❖ Write unit and integration tests using tools like Jest or other testing frameworks to ensure code quality.
- ❖ Work closely with designers, product managers, and backend developers in an Agile environment to ensure smooth delivery of features.
- ❖ Maintain clear and concise documentation of your work for both technical and non-technical audiences.
- ❖ Proficient in React JS and React-related technologies (React Hooks, JSX, React Router).
- ❖ Strong knowledge of JavaScript (ES6+), HTML5, and CSS3.
- ❖ Experience with state management libraries such as Redux or React Context API.
- ❖ Familiarity with RESTful APIs and working with JSON data.
- ❖ Experience with modern JavaScript build tools (Webpack, Babel, etc.).
- ❖ Familiarity with version control systems (e.g., Git).
- ❖ Knowledge of responsive design techniques and cross-browser compatibility.
- ❖ Experience with unit testing frameworks such as Jest

Academic Details

- ❖ Bachelor of Engineering
East Point College of Engineering – VTU
Bengaluru, Karnataka

Work Experience

APPSTEC ERP SOLUTIONS PVT LTD | React JS Developer October 2021 – Present

- Spearheaded the end-to-end development of an e-sourcing product using React JS resulting in a robust platform that streamlined procurement processes.
- Collaborated closely with product managers and UI/UX designers to translate business requirements into responsive user interfaces.
- Developing efficient queries and data models to manage supplier profiles, bids, and procurement data.
- Led code reviews, mentored junior developers, and enforced best practices, maintaining high code quality and fostering a collaborative team environment.
- Utilized Git and GitHub for version control, enabling efficient code collaboration among team members.

Highlights:

- Extensive experience building dynamic, responsive web applications using React.js.
- Strong knowledge of React fundamentals such as JSX, Components, Props, State, and the React lifecycle.
- Expertise in creating reusable and maintainable React components.
- Solid experience with state management libraries like Redux, Context API, or Recoil for efficient state management in large-scale applications.
- Knowledge of React hooks (useState, useEffect, useReducer) for handling side effects and component states.
- Ability to design complex user interfaces with React's component-based architecture.
- Skilled in component-driven development (using libraries like Storybook) and following principles of separation of concerns.
- Knowledge of techniques for optimizing React applications, such as memoization, lazy loading, code splitting, and React's Pure Component.
- Familiarity with tools like React DevTools for performance profiling and debugging.
- Strong experience using Git for version control and collaborating with teams through GitHub or GitLab.
- Familiar with branching strategies and pull requests in a collaborative development environment.
- Worked in Agile/Scrum environments collaborating with cross-functional teams, including back-end developers, UI/UX designers, and product managers.

Languages Known

English, Kannada

Hindi, Marathi, Telugu

SKILLS

- Programming Languages: HTML, CSS, JavaScript, JSX
- Libraries: Frameworks React JS, React Router, Axios, Bootstrap, Redux-Toolkit
- Tools: Platforms VS Code, Git, GitLab, npm, JIRA, Webpack, Babel, Vite

PROJECTS / OPEN-SOURCE

ELIT | React JS, Node JS, MySQL, MSSQL

Overview:

ELIT is a comprehensive solution focusing on streamlining procure-to-pay (P2P) processes. It facilitates efficient management of purchasing activities from requisition to invoice processing, aiming to enhance organizational procurement efficiency.

Key Features:

- Purchase Order Management: Automated creation, approval workflows, and tracking.
- Invoice Processing: Integration with vendors for invoice submission and verification.
- Vendor Management: Database-driven vendor profiles and performance tracking. Analytics Dashboard: Real-time insights into procurement metrics and expenditure.

Role & Contributions:

- Led the frontend development team, implementing responsive UI/UX designs and ensuring cross-browser compatibility.
- Collaborated closely with backend developers to integrate features and resolve technical issues promptly.

Conclusion:

- ELIT showcases my expertise in frontend development, agile project management, and P2P automation,
- Emphasizing innovation and efficiency in enterprise procurement solutions.
